BRIDGE JOINT REPAIRS ON INTERSTATE 93 IN CONCORD
WORK BETWEEN EXITS 12 AND 13 WILL REQUIRE LANE CLOSURES

The New Hampshire Department of Transportation announces bridge joint repairs will take place at various bridges on I-93 northbound and southbound between Exit 12 and Exit 13. The work will require daytime lane closures and is scheduled to begin Tuesday, September 4, 2001.

A New Hampshire Department of Transportation crew will restrict traffic on various I-93 bridges between Exit 12 and Exit 13 to a single 14-foot wide lane. Restrictions will take place first on northbound after which work will take place on the southbound bridges. The lane closures will begin at approximately 9:00 a.m. and last until approximately 3:00 p.m. The work is expected to last four workdays, or until repairs are complete.

Plans are to use advanced warning signs, arrow boards, and state police to guide vehicles through the work area. In the event of adverse weather, work may be delayed until the next suitable workday.

Motorists traveling on I-93 in Concord are asked to use caution while driving through the work zone, as workers and equipment will be present. Minor delays may be expected.
